

Japanese Red Cross Hiroshima College of Nursing

*We welcome
educational
visitors to our
college ...*

Our college is located on a hillside in Hatsukaichi City, from which we can enjoy a panoramic view of the beautiful islands of the Seto Inland Sea. These include Miyajima, on which is located Itsukushima Shrine, a World Heritage site.

We welcome opportunities to collaborate with international partners, and look forward to exploring and developing nursing education at both local and global levels.

**Visits may include studies
in the following fields ...**

- Simulation Center
- Simulated patients
- Physical assessment
- Peace studies
- Japanese cultural studies
- Community-based activities
- Maternity nursing & midwifery
- Disaster relief nursing
- Elderly care
- Visits to a Japanese Red Cross Hospital and Red Cross Blood Center

All course participation
will be on a non-credit
basis.

What can visiting students experience?

Students can engage in a wide variety of activities, but our guest program focuses on three main areas: participation in nursing classes, study of Japanese nursing education, and extracurricular activities with our students.

"On graduation, our students are expected to understand nursing phenomena from a global point of view and develop an ability to contribute internationally. Your visit could help us to achieve this goal."

FAQs

When can visits be arranged?

Visits may be considered at any time of the year, however, we try to avoid scheduling visits during test periods and times when our students are off campus. Generally, the periods of March to June, and September to early December are most convenient.

What costs are involved?

There will be no charge for university sponsored educational activities, however, all basic transport and accommodation costs are the responsibility of visiting students. These costs may be significantly reduced if a reciprocal hosting agreement can be concluded with visiting institutions.

What accommodation options are available?

We can arrange hotel, hostel or local homestay accommodation.

FAQs

What other activities are available?

We can offer student-led cultural exchange, including guided tours of two UNESCO World Heritage Sites – Itsukushima Shrine on the island of Miyajima, and a tour of Hiroshima's Peace Memorial Park, with its iconic A-Bomb Dome.

An introduction to peace studies and a chance to experience the tea ceremony, would also be a central part of any visit.
